The left hand and face were also painfully injured. Dr. Bullock made an examination, assisted by Mr. Fraser of East Weymouth. No little excitement prevails among the villagers. It is stated that the explosive was obtained from a storehouse occupied by McCarty Brothers, the Old Colony railroad contractors.

An examination of the school room desks revealed the presence of a large cartridge sufficient in size to have blown the building to atoms. Several smaller ones were found. Investigation did not disclose the parties who broke into the storehouse, although several boys acknowledged having taken some of the explosives. There is a general feeling of uneasiness in the violatry as many cartridges are said to have been scattered by the children along the streets.

Salt a Cure for Falling Hair

I am very glad of the opportunid) given
me by the query to thank. Yots, and Queries
for the recommendation of dry salt as a cure
for falling hair. My hair had opine out frightfully for several months so that I dreaded
touching it with a brush. Thinking that salt
could do no harm, anyway, and remembering
the benefit always derived from sea air and
bathing. I tried it, and was surprised at the
result for after three applications—putting
it on atmight and brushing and shaking out
in the morning—not one hair came out with
the most vigorous brushing. Thave used it
three or four times a wisek since the middle
of November, and notice a perceptable thick of November, and notice a perceptable thick on revenues, and notice a perception thick ening of my hair and no disagreeable results whatever. The treatment might not be so beneficial to every one, of course but I have written this fully feeling that I could hardly say too much in praise of what has been so successful with myself "-Boston Transcript.

One of the effects of the Inur-State Com merce law is turn over a large amount of traffic to the Canadian Pacific line at the expense of American lines A Washington despatch says When the Inter State Commerce bill was under discussion in Congress it was arged in opposition to the long and short haul section that it would divert a large portion of the traffle of our trans continental roads to the Cana dian Pacific and to other trunk lines of the Dominion It was maintaided that the Candian roads, being exempt from the limitations as to ireight rates which were imposed by the bill upon the trunk roads of the United States could make such rates that no American road could success fully compete with them. This has been done Statements have been prepared to be submitted to the Inter State Commerce commission, which show that the Cana dian Pacific has succeed in diverting a large portion of the traffic which properly ongs to the United States trunk lines to the Canadian Pacific, and that that road is making rates to the Western lake ports which are considerably lower than those of the United States trans-continental lines The statements show, also, that, nothwithstanding the 75 day suspension, the Canadian Pacific will be certain to retain this traffic, for the reason that it is able to make long time contracts at low rates, which the American trunk lides cannot make, since they are necessarily limited to contracts within the 75 day suspen sion period, and it is evident that they can't venture to make longer contracts, for it is more probable that the commission will not suspend the fourth section

The officials of the concern admit that there is a big shortage, but say that it was caused by Cashier Know Iton's bad financial management and his peculiar methods of handling the funds of the old Will County Savings Bank. The latter was a private concern, but Knowlton was manager of it as well cashier of the National, and both banks were, until recently, in the same building. The cashier has resigned and is now in Canada, with his wife, but Captain G. Phelps, brother of the American Minister to England, who is his counsel, denies that he is a defaulter, and states that Calyon Knowlton, his father, has made arrangements to make good the shortage. EVENING SERVICE. At the evening service was observed the anniversary of the Freedmen's Aid So-A chorus choir sang several selections. Rev. Mr. Crosby read the Scriptures, and Bishop Walden spoke quite at length in the interests of the celored people of South. In his instructive address, "What the church has done and what she wil do" was clearly set forth. Rev. Theodore Gerrish followed the Bishop in a brief but earnest address on the same theme. The church was filled to overflowing. The service was closed by the singing of the Doxology.

Besides about one hundred ministers who are in attendance upon the conference there are a large number of visitors from different parts of Maine. Bangor extends generous and hear y entertainment to the visitors. The weather is delightful, and all the services well attended. It is rumored that a transfer will take place and that the pastor of Auburn, Rev. Mr. Lindsay, and Rev. A. S. Ladd, of the Bangor First church, will exchange places.
